Solorio, Jose (D-69th)

Description According to CEO Risk Management staff, the September 2, 2011 amendments removed a previous retroactivity problem and substantially narrowed the focus of the bill to surgical cases where surgery is delayed based on the treating physician's reasonable and appropriate efforts to utilize more conservative care first. AB 1248

Hueso, Ben (D-79th)

Status: Chapter 853, Statutes of 2012

Description As amended on May 23, 2011, was opposed by the County because it would have required local governments to provide Social Security benefits to temporary employees. On June 30, 2011, AB 1248 was amended to exempt local public employers that have an alternate benefit plan for temporary employees, such as the County's Pension Savings Plan; therefore, the Sacramento advocates removed opposition to the bill and took no position on this measure. After several months of inactivity, AB 1248 was amended on May 10, 2012, with possible impact to the County by requiring any new, alternate benefit plan implemented after July 1, 2012, to provide benefits with a higher level of value than the existing plan. However, it was later amended on May 21, 2012, to apply specifically to the City of San Diego. Therefore, the County will maintain no position on this measure.

AB 2231

Fuentes, Felipe (D-39th)

Status: Failed in the Senate

Description AB 2231 previously would have created a new State mandate and make significant changes to California law by making cities and counties responsible for the repair of any sidewalks they own or any sidewalks that have been damaged by a plant or tree. The bill also would have prohibited cities and counties from imposing an assessment on the adjacent property owner for the repair of the sidewalk.

As amended on May 31, 2012, AB 2231 would provide that if a city, county, or city and county has an ordinance in place that requires that local entity to repair sidewalks, a repeal of that ordinance shall become effective only if the repealing ordinance is approved by the majority of voters in a consolidated or general election.

According to the Department of Public Works, as currently amended, AB 2231 will no longer impact the County as the County does not have an ordinance that would fall under the provisions of the bill. Therefore, the Sacramento advocates will remove the County's oppose position, and take no position on this measure at this time.
